

**STREAM** is the vision of Oroville educators, parents, and community members who wanted to provide a science-based, problem and project-based education for Oroville area students.

**STREAM** students read both informational text and great literature each day and participate in a rigorous mathematics program to apply math and STEM skills to real-life situations.

**STREAM** students (K-8 grade) also participate in the arts, music, and P.E. every day. Students begin coding as early as kindergarten.

**STREAM** is a free, public charter school.

### *Mission Statement*

The mission of **STREAM** is to prepare students to be confident, equipped, intentional, and collaborative 21st Century thinkers who are motivated and skilled to meet the challenges of their rapidly changing world.

**STREAM** develops future leaders by encouraging academic excellence, building critical and creative thinking skills, heightening curiosity, supporting collaboration, providing rich access to technology, and enriching social development in a nurturing environment.

A Free, Public School in Oroville

455E Oro Dam Blvd. East  
Oroville, CA 95965  
(530) 534-1633

**STREAM** is moving TK into its own classroom and expanding to two Third and Fourth Grade classes for the 2023-2024 school year.

**STREAM is moving TK into its own classroom and expanding to two Third and Fourth Grade classes for the 2023-2024 school year.** STREAM will continue to add a new class each year at each grade level (Fifth through Eighth grades) as students move up.

**STREAM** students use critical thinking skills to address science standards while applying math, literacy, social studies, arts, and problem-solving skills to real-life situations.

**STREAM** equips students to succeed socially and intellectually through collaborative problem and project-based inquiry learning and service learning projects with a **STREAM** focus.

### *How does one apply to STREAM?*

You can apply at any time, but **STREAM** holds a lottery in March to create a wait list to fill any openings that occur during the following school year. Lottery applications are available on the first school day in January and the lottery application period ends on the second Friday in March.

The application lottery is a drawing to determine the order of students (by grade level) who will be placed on the wait list to fill any openings that may occur during the following school year. The virtual public lottery is held on a Friday near the end of March. **STREAM** siblings and OCESD students receive a lottery priority.

Applications received after the second Friday in March are placed on the wait list, after the lottery, as they are received.

Applications can be found online at <http://streamcharterschool.org>

455E Oro Dam Blvd. East  
Oroville, CA 95965

### *How is STREAM distinct?*

**STREAM** offers:

- a longer school day;
- access to a challenging curriculum;
- a technology-rich environment;
- problem and project-based learning;
- an arts embedded curriculum;
- individualization for each student;
- a multi-tiered intervention program;
- daily music classes for K-8 grade;
- daily P.E. classes for K-8 grade;
- an in-house after-school program;
- long-term, positive relationships; and
- family and community involvement.

*Building an interest in the STEM (Science, Technology, Engineering, and Math) skills needs to begin in the early years of education. Students need the time and freedom to discover where their interests will take them. A third grader can build and fly a rocket. A fifth grader can program a robot. An eighth grader can create her/his own video game. The elementary years can inspire children to be producers, designers and engineers ready to engage the high school and college years with great purpose.*
