Anti-Bullying Policy

To prevent bullying on campus, Stream Charter School implements restorative practices and provides intervention strategies to staff and students. Stream Charter School may provide students with instruction in the classroom or other school settings that promotes communication, social skills, and assertiveness skills – aligned with the Stream Charter School Life Skills.

Cyberbullying Policy

Stream Charter School will not tolerate behavior that infringes on the safety of any student, including the bullying, harassment, intimidation, and cyberbullying of any student. Students who engage in cyberbullying may be subject to disciplinary action up to and including suspension and expulsion.

What is Cyberbullying?

Cyberbullying is bullying that takes place using electronic communication technology such as cell phones, computers, and tablets, as well as communication tools including social media sites, e-mail, web applications, and text messages. In some cases, cyberbullying is a single child sending a hurtful text to another child. But it can also be a group of students posting hurtful things about another student on a social media website.

Examples of cyberbullying include:

- Sending mean emails, texts or instant messages to students.
- Threatening or intimidating another student online or in a text message.
- Posting hurtful statements about a student on social media platforms.
- Pretending to be another person by creating a fake online profile.
- Taking an embarrassing or sexually explicit photo of a student and/or sharing it without permission.
- Sending repetitive neutral messages to a student in a harassing manner.

Victims of cyberbullying may experience many of the same effects as children who are bullied in person, such as impacted academic performance, low self-esteem, or depression. However cyberbullying can seem more extreme to its victims for several reasons:

- Cyberbullying can be harsher. Often kids say things online that they wouldn't say in person.
- Cyberbullying can have a greater impact on children as they can receive bullying communications at home. Being bullied at home can take away the place children feel most safe.
- Cyberbullying's impact can be devastating due to how easy it is to share bullying communications. Children are able to send emails or make posts on social media about a student and it can be easily shared with classmates and a larger public audience. The student who is targeted may feel publically humiliated since the viewing audience is virtually limitless.

Student Safety Policy #6 - Anti-Bullying Policy

Anti-Bullying Policy

Stream Charter School can discipline students for any acts that occur **on-campus** (e.g., student sends bullying texts to another student during school hours). A student may also be disciplined for **off-campus** cyberbullying if it meets the definition of bullying above and substantially disrupts another student's instructional environment.

For example, a student who uses a home computer to post insulting statements about another student on a social media website is engaging in cyberbullying. As a result, the target student may be subject to additional harassment at school, making it more difficult for him/her to participate in educational activities. Any student who makes that kind of post will be subject to disciplinary action, as well as any other students who are responsible for harassing the target student.

Stream Charter School staff recognizes students' First Amendment rights and will consult with legal counsel if they have questions about the school's ability to discipline a student for actions conducted off-campus.

Parent Interactions with Staff

Stream Charter School's education programs greatly benefit from volunteer support of our parent community. This support takes many forms, including helpful parent feedback.

Stream Charter School expects that parents/guardians will communicate with Stream Charter School staff in a respectful and non-harassing manner. If parents/guardians direct harassing, malicious, obscene, threatening, or intimidating communications towards any member of the Stream Charter School community (e.g., staff, parents, and students), they may have their electronic and/or telephonic access to school staff and Stream Charter School social media accounts (e.g., Facebook groups and pages) restricted at the discretion of the Co-Directors or designee.

Cyberbullying Resources

- ❖ Parents are encouraged to provide guidance to children on appropriate behavior using technology, which may include:
 - Never give out personal information online, whether in instant message profiles, chat rooms, blogs, social media sites, or personal websites.
 - Never tell anyone but your parents your password, even friends.
 - If someone sends a mean or threatening message, don't respond. Save it or print it out and show it to an adult.
 - Don't put anything online that you wouldn't want your classmates to see, even in email.

- Don't send messages or make posts when you're angry. Before clicking "send," ask yourself how you would feel if you received the message.
 - Help other students who are bullied online by not joining in and showing bullying messages to an adult.
 - Always be as polite online as you are in person.
-
- ❖ Know the sites your children visit and their online activities. Ask where they're going, what they're doing, and who they're doing it with.
 - ❖ Learn about the sites and applications your children use, so you can better monitor their use.
 - ❖ Discuss cyberbullying with your children and ask if they have ever experienced it or seen it happen to someone.
 - ❖ For older students who have social media accounts, ask for their passwords, and if necessary tell them you'll only use them in case of emergency.
 - ❖ For older students who have social media, ask to "friend" or "follow" your kids on social media sites or ask another trusted adult to do so.
 - ❖ Tell your children that you won't blame them if they are cyberbullied. Emphasize that you won't take away their computer privileges—this is one of the main reasons students don't tell adults when they are cyberbullied.

Students are expected to immediately report incidents of bullying—including cyberbullying—to a teacher, Dean of Students, Co-Director or designee. Students and parents may report bullying anonymously on the school's website and the school designee will be responsible for reaching out to the students/parents within 1-2 days.

If any student who believes he/she was cyberbullied by another student, or the parent of the complainant student, feels that appropriate resolution of the investigation or complaint has not been reached, the student or the parent should contact the Director of Education.
